856 EXPRESSIONS

Welcome to the Lea Elite Collections, Expressions. A very contemporary style with simple design influences that accentuate any setting.

The finish is a rich, "root beer" color finish with matched Cherry veneers on case tops and beds; adding to the design of the high end contemporary style.

Heavy drawer frames that not only add weight, but act as handles to open drawers and help create a clean look to Expressions. Multiple unique sleep options and storage possibilities add style and function.

Expressions is a versatile group that offers a lasting style that works for youth, teen and even smaller master bedroom settings.

 Crafted of select cherry veneers
 with warm undertones.

What Makes It Elite?

The Lea Elite Collections use higher quality materials, combined with designs that feature pattern veneers, inlays and matched veneer drawer fronts. These extra features create a step-up design usually associated with more expensive, heirloom quality furniture.

A multiple step finish process featuring hand selected veneers with as many as 7 different spray applications and as many as 8 additional hand applications are combined to create a high luster finish that accentuates the wood veneers and is generally found only on the very best furniture.

MULTIPLE STEP FINISH PROCESS

Superior Drawer Construction

Drawer parts are hand sanded to create a smooth interior and finished with a stained protective top coat to provide a snag free drawer interior.

Traditional English dovetail construction featuring interlocking dovetail joints on drawer fronts and drawer backs providing more strength and durability than commonly used French dovetail or box joints.

Drawer bottoms that are reinforced by corner blocks and center rails.

Drawers that extend completely out of the case provide more useful storage space with easier access to the contents of the drawers. Drawers also feature automatic drawer stops to prevent drawers from falling out of the case.

Select drawers include consumer friendly features such as aromatic cedar bottoms or removable drawer dividers to help provide organization of drawer contents.

Sturdy Case Construction

Drawers feature full extension drawer guides with steel ball bearings that provide easy one-handed smooth operation and greater drawer stability than standard center mounted drawer guides. Drawers also feature automatic drawer stops to prevent drawers from falling out of the case.

Hardwood frames with protective panels between each drawer help keep clothes dust free.

Back panels are recessed and attached by screws providing more strength and structural integrity than stapled on back panels.

Safety and Bed Construction

Lead free child safe finishes that meet all US Safety requirements.

Bunk beds and Loft beds that comply with all ASTM consumer safety standards.

Bunk bed ladders and guardrails that attach with metal screws and metal-to-metal fasteners to provide strength and security.

Slat roll mattress support systems providing mattress support without the need for a box spring or a bunkie board, come standard with bunk beds, loft beds and platform beds. Each slat fastens with a screw providing additional strength and structural integrity to the beds.

Anti-tip over restraint kits that secure the case to the wall to prevent cases from tipping over are included with all cases 30" tall or taller.

All beds feature metal connectors for strength and lasting durability and to prevent unintentional rail detachment.

Most twin and full size beds feature two rail heights that will accommodate multiple underbed storage options that offer deep under bed storage drawers or dual function trundle/storage capability that take advantage of unused space under the beds.
