960 TweenNick Collection

nickelodeon ROOMS

960 TweenNick Collection

The TweenNick collection is very eclectic, yet it has some common threads. It includes graphic designs that feature "Bob Squared" - a fresh, more artistic perspective of SpongeBob and "Simply Bob" - using orange coral graphics and seaflower shapes, featuring a silhouetted SpongeBob SquarePants and SLIME!

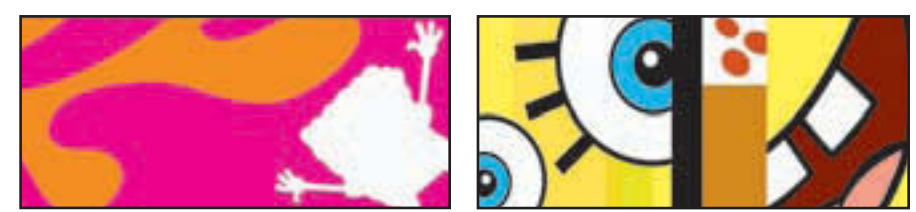

Beds are the focal point of the TweenNick collection, and the modular components and unique functional and interactive features will allow tweens to personalize their room. Close the curtains on the girl's suite or the boy's loft and your tween can have some much needed downtime and privacy. Add in a nesting chaise, mobile futon or a rocker chair, and it becomes the place to hangout with friends.

Orange drawer pulls, glow-in-the-dark accents and stylized and silhouetted SpongeBob SquarePants graphics make the room an exciting place to be. Awesome Accent chests with funky shapes combined with all-over graphics or touches of dripping glow-in-the-dark SLIME! to add a bit of rebellious irreverence to any room.

Packed with plenty of storage and display places, TweenNick from Nickelodeon Rooms fits the way tweens live.

it's all about
**personal
expression &
style**

Each piece with replaceable panels comes with 1 panel that is reversible and interchangeable. The panel features Simply SpongeBob, with glow-in-the-dark accents, on one side and SpongeBob Squared on the other side. The Cave Loft Bed features SLIME! and SpongeBob Squared panels & privacy curtains.

960 TweenNick Collection
White Painted Color Finish

Example of Graphic Panels

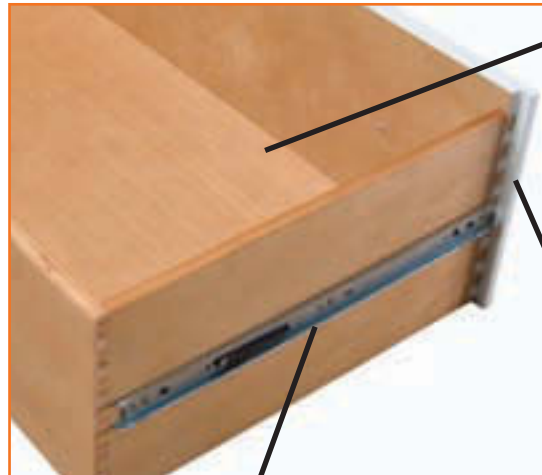

The Nickelodeon Rooms Collections use higher quality materials, combined with innovative and creative designs that grow with your child. These features create a step-up design usually associated with more expensive quality furniture.

The TweenNick Collection is finished in a bright white color finish; adding to the clean contemporary feel of the collection.

The assortment and versatility of bed options makes this a collection suitable for all ages.

Each piece with replaceable panels comes with 1 panel that is reversible and interchangeable. The panel features Simply SpongeBob, with glow-in-the-dark accents, on one side and SpongeBob Squared on the other side.

Superior Drawer Construction

Drawer parts are hand sanded to create a smooth interior and finished with a stained protective top coat to provide a snag free drawer interior.

Traditional English dovetail construction featuring interlocking dovetail joints on drawer fronts and drawer backs providing more strength and durability than commonly used French dovetail or box joints.

Drawers that extend completely out of the case provide more useful storage space with easier access to the contents of the drawers.

Drawers also feature automatic drawer stops to prevent drawers from falling out of the case.

Drawer bottoms that are reinforced by corner blocks and center rails.

Select drawers include features like interchangeable hardware!

Sturdy Case Construction

Drawers feature full extension drawer guides with steel ball bearings that provide easy one-handed smooth operation and greater drawer stability than standard center mounted drawer guides. Drawers also feature automatic drawer stops to prevent drawers from falling out of the case.

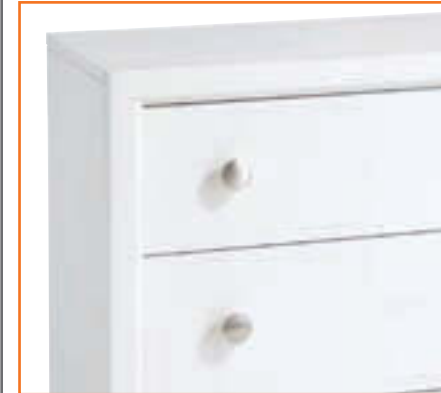

Hardwood frames with protective panels between each drawer help keep clothes dust free.

Back panels are recessed and attached by screws providing more strength and structural integrity than stapled-on back panels.

Quality & Safety Features

Lead free child safe finishes that meet all US Safety requirements.

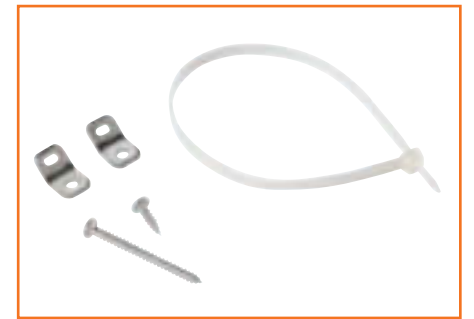

Sturdy construction and shaped edges on beds and case pieces make this collection even more "kid-friendly".

Slat roll mattress support systems providing mattress support without the need for a boxspring or a bunkie board, come standard with all beds. Each slat fastens with a screw providing additional strength and structural integrity to the beds.

Built in electrical/USB hub on -341 Bookcase Desk.

Anti-tip over restraint kits that will secure the case to the wall to prevent cases from tipping over are included with all cases 30" tall or taller.

All beds feature metal connectors for strength and lasting durability and to prevent unintentional rail detachment.

Beds that comply with all ASTM consumer safety standards.

Loft Bed steps and guardrails that attach with metal screws and metal-to-metal fasteners to provide strength and security.
